

INTERMEDIATE ARCHITECTURAL TECHNOLOGIST

Caricari Lee Architects Inc. is a Toronto based architectural practice with over 30 years of professional experience. With a diverse range and depth of architectural specialties, varying from small scale renovations and additions to larger scale commercial and multi-unit residential projects, our firm values both creative concepts and critical thinking to deliver design excellence to each and every client. Our studio is a positive and collaborative environment which is supportive of continuous team development and personal growth. The ideal candidate for this position is a highly motivated, pro-active problem solver, with a keen interest in the construction process.

QUALIFICATIONS

- A Degree or Diploma from an accredited institution in Architecture
- 3+ years of relevant experience in Ontario with a variety of building types and sizes
- Fluency with the Ontario Building Code and municipal zoning by-laws
- Strong understanding of drafting principles, construction details and architectural building systems
- Knowledge of building construction systems, constructability, materials, and industry associated standards.
- Proficient in AutoCAD, Revit, and MS Office
- Experience with Photoshop, Illustrator and Sketch Up graphic software an asset
- Strong work ethic, verbal and written communication skills
- Ability to work independently and effectively meet deadlines

DUTIES/RESPONSIBILITIES

- Prepare 2D and 3D design materials for client and team review.
- Perform site analysis, including survey of existing conditions and field measurements.
- Perform product research and assist project designers and project architects with material selection and system research.
- Interpret and apply the building code and requirements of other regulatory agencies.
- Prepare and revise documentation in various architectural phases including site plans, floor plans, building elevations, building sections, and details.
- Attend project coordination and meetings with internal team members and/or external consultants.
- Prepare contract documents including details, sections, elevations and schedules.
- Coordinate with contractors and consultants to obtain necessary information and assist in problem solving.
- Self-check work for accuracy, omissions and legibility, and to ensure the level of work adheres to CLA drawing standards.
