

DESCRIPTION

Caricari Lee Architects Inc. is a Toronto based architectural practice with over 30 years of professional experience. With a diverse range and depth of architectural specialties, varying from small scale renovations and additions to larger scale commercial and multi-unit residential projects, our firm values both creative concepts and critical thinking to deliver design excellence to each and every client. Our studio is a positive and collaborative environment which is supportive of continuous team development and personal growth. The ideal candidate for this position is a highly motivated, pro-active problem solver, with a keen interest in the construction process.

We are currently recruiting for an **INTERMEDIATE ARCHITECTURAL TECHNOLOGIST**.

QUALIFICATIONS

- A Degree or Diploma from an accredited institution in Architecture;
- 5-10+ years of relevant experience in Ontario with a variety of building types and sizes
- Fluency with the Ontario Building Code and municipal zoning by-laws
- Strong understanding of drafting principles, construction details and architectural building systems
- Knowledge of building construction systems, constructability, materials, and industry associated standards.
- Proficient in AutoCAD, Revit, and MS Office
- Experience with Photoshop, Illustrator and Sketch Up graphic software an asset
- Strong work ethic, verbal and written communication skills
- Ability to work independently and effectively meet deadlines

DUTIES/RESPONSIBILITIES

- Produce designs, working drawings, charts, forms and records, and detailed scale plans for foundations, buildings and structures, based on preliminary concepts, sketches, engineering calculations, specification sheets and other data using CAD and/or Revit.
- Perform site analysis, including survey of existing conditions and field measurements.
- Analyze building codes, by-laws, space and site requirements, and other technical documents and reports to determine their effect on architectural designs.
- Obtain and assemble data to prepare detailed drawings of architectural designs and plans for buildings and structures according to specifications provided by architect.
- Attend project coordination and meetings with internal team members and/or external consultants.
- Coordinate with contractors and consultants to obtain necessary information and assist in problem solving.
- Prepare contract documents including details, sections, elevations and schedules.
- Prepare cost estimates, contracts, bidding documents and technical reports for specific projects under an architect's supervision.

- Self-check work for accuracy, omissions and legibility, and to ensure the level of work adheres to CLA drawing standards.
